SUMMARY

Computer Science undergraduate with experience in **Python** and **C++**, with a strong foundation in **Data Structures and Algorithms**, **Machine Learning**, **AI automation**, and **RAG**. Built AI/ML projects involving predictive modeling, with an interest in developing scalable software and AI solutions.

PROJECTS

Website RAG Evaluator — Python, FastAPI, React, ChromaDB, OpenAI [\(Link\)](#)

Built a full-stack Retrieval-Augmented Generation (RAG) system that extracts and chunks website content, generates embeddings, and performs semantic vector retrieval to provide context-grounded LLM responses. Developed a RAG evaluation pipeline to measure retrieval relevance, answer correctness, and citation validity.

Explainable ML for Academic Performance Prediction — Python, Scikit-learn [\(Link\)](#)

Reimplemented a research-based ML framework for academic performance prediction using regression and ensemble models, including a weighted voting ensemble, with SHAP and LIME for model interpretability and feature analysis.

PyShop – Django E-commerce — Python, Django, SQLite, Bootstrap [\(Link\)](#)

Developed a responsive e-commerce web application with product management, session-based shopping cart, quantity updates, automated pricing, and checkout/order summary using Django and Bootstrap.

EDUCATION

2025 - Present	Master of Computer Applications at SASTRA Deemed University	
2022 - 2025	Bachelor of Computer Applications at Holy Cross College	(GPA: 7.1)
2021 - 2022	HSC (XII) at St.Joseph Higher Secondary School	(Percentage :81)
2019 - 2020	SSLC (X) at St.Joseph Higher Secondary School	(Percentage :76)

SKILLS

Languages	Python, C++, JavaScript , Go
AI	GenAI, LLMs, RAG, AI Agents, Prompt Engineering
Frameworks	Django, Flask, React Js, Node js, Bootstrap, TensorFlow
Libraries	Pandas, NumPy, Scikit-learn, Matplotlib
Database	MySQL, MongoDB
Core CS	DSA, OOPs, DBMS, Computer Networks
Tools	Git, Github, Rest API, Fast API
Soft Skills	Communication, Problem-Solving, Decision Making

CERTIFICATION

Meta - Introduction to Front-End Development Coursera (2023)
The Complete Full-Stack Web Development Udemy (2025)
Accenture - Data Analytics and Visualization Job Simulation Forage (2024)
AI Agents Course Hugging Face (2026)
Introduction to Machine Learning Kaggle (2026)
